PLEASE NOTE:

1. Waterproof cagoule & trousers MUST be marked "waterproof" by manufacturer otherwise they are useless. A soggy Cub means problems for everyone!
2. Hiking boots means leather or tough fabric, but boots must be supportive and preferably waterproof. (Note for older Cubs if considering purchasing new boots; fabric boots are not suitable for Scout camps.)
3. Please do not bring electrical equipment such as phones etc. to camp. We are not insured for loss or damage and they can cause distractions.
4. Please do not send large amounts of snacks / sweets with your child. This causes problems at meal times when Cubs have no appetite and can also attract insects and rodents into the tents.
5. If your child helps you to pack he/she will know what was brought and is less likely to misplace items.
6. Your child will be out-of-doors for the weekend; please consider the weather forecast when packing and make sure your child has enough warm / waterproof clothes, a roll mat and warm sleeping bag.

If you have any questions or need advice please speak to Akela or one of the Cub leader team.
We have some items of kit at the hut which may be borrowed if needed.

Thank you.
